Design Consultants:

Structural Engineers: Jensen Engineering
Mechanical / Electrical Engineers: Picard Engineering
Civil Engineers: McMahon LaRue Associates

Construction Cost: \$9,075,005

Schedule:

Design: 14 Weeks
Construction: 10 Months
Completion: November 2010

Project Details:

Square Footage: 87,683
Unit Count : 88 Units

Project Description:

The project consists of the site development and construction of a new senior apartment facility containing 88-units and amenities. The building is two-stories, wood-frame construction, slab on grade with a Type 5A construction classification. The units are a mix of one and two bedrooms with 14 fully accessible units and 74 adaptable units, three of which are hearing impaired. The work also included site improvements, electrical, plumbing, heating and ventilating. Multiple earth tone colors provide a distinguished look. Home Leasing distinguishes itself by providing garden plots for its residents and walking paths.

Scope of Services:

Design services included development of floor plans and elevations that met the owner's requirements for unit count and mix, along with the desired ancillary spaces. Floor plans, elevations, section, square footage calculations, outline specification, energy analysis and ResCheck were all provided for the funding application process. Construction documents were provided for construction, permit and bidding. Construction administration services were provided throughout the full construction process, including job meetings, site visits, shop drawing review and as-built coordination.
